

Casinos

Our fun casino has continually proved successful with guests of any age in any social or corporate function. It is totally flexible and can be run at any point in the evening to suit itinerary of the individual programme.

Frequently the casino is set up in a separate room, dependant on the limitations of the venue, where, by the uses of creative lighting and the provision of elegant plants we re-create the atmosphere of a genuine casino club.

We pride ourselves on the quality of our genuine full size casino tables, which complimented by the skills and character of our professional croupiers, guarantee an enjoyable evening.

Our croupiers are always happy to explain the rules and procedures of the various games, and the provision of an event manager at every function ensures the smooth running of the evening.

American Roulette

Probably the best-known casino game - Roulette is fast, furious and very exciting! Our standard Roulette tables can accommodate up to 24 people playing at any one time. Each player can make as many bets as they wish on which number the ball will drop. Odds are based from even money to 1-35. A truly enticing game. Fast paced and easy to play.

Blackjack

Played against the dealer, this is a tense and exciting game. The object being to draw cards that add up to 21 or close without going over! After everyone has received their cards the dealer reveals his. If the dealer deals himself a 16 or under he must draw another card but he must stay on 17 or over. If the dealer goes bust he pays all players still in the game.

Dice Table

This half-sized dice table creates a spectacular centrepiece for any casino event. It also provides a very entertaining gambling experience as guests throw the dice "Vegas" style down the table.

Our highly trained croupier will keep the gamblers aware of the rules whilst entertaining them with gambling "jargon". A truly enjoyable attraction.

Example Casino Format

Casinos work well in a variety of formats such as before a formal or dinner or afterwards with a few drinks. The Casino will start with our event manager welcoming the guests with a short introduction to the games. Our croupiers will distribute the fun money, which usually takes the form of a 100 sovereign's note.

Guests then take their sovereigns to the tables and exchange them, with the croupiers, for gaming chips.

The professional croupiers who will ensure everyone feels comfortable with each game will explain the rules of each game. The aim is to win as many chips as possible during the evening.

Approximately 15 minutes before the end of the evening (usually lasting 1½ - 2 hours) the event manager will announce "last three spins" the betting normally becomes frantic as the players try to amass as many chips as they can.

The casino then closes and our staff count up to find the winner.

Our event manager (or someone from the host organisation) will then award the prize to the lucky winner.
