

Morning Meeting **Afternoon Activities**

**Turn your next meeting in to a productive,
memorable and useful event!**

Holding a morning meeting followed by an afternoon of activities is a great way to get some solid business completed in a cost effective way.

Adventure Sports Ltd. can host meetings / presentations for any size of group from four people up to 60 in the Clubhouse or the Meeting Room. The following format proves to be a popular choice for a typical group of around 20 guests:

Example Programme

- 9.00 AM Guests arrive at Wedgnock Rifle Range, Warwick. Tea / coffee is served and guests settle down for the morning meeting.

Refreshments will be available at any time during the morning.
- 12.30 PM Meeting ends and lunch is served.
- 1.15 PM Following lunch our event manager will brief the guests on the format for the afternoon and divide the guests into teams of between five and seven people.
- 1.20 PM Instructors take each team out to their first activity. Every participant will try the activity and be scored on their performance to ensure the afternoon has a competitive feel.
- 2.10 PM First activity ends. Teams circulate around to their second activity.
- 3.00 PM Third activity.
- 3.50 PM All activities end. Guests return to Clubhouse where scores are announced and prizes presented.
- 4.10 PM Guests depart.

Each team will take part in each of the three activities during the afternoon. Scores are kept throughout to allow a winning team to be found at the end of the event.

Activities

A wide range of activities can be incorporated into the afternoon. Any three of the following activities could be incorporated:

4x4 Off Road Driving

Each guest will be given expert tuition on how to drive and control a Camel Trophy Landrover. A challenging course is used that incorporates inclines, descents, water splashes and lots of mud.

Grass Karts

Guests will take it in turn to drive these powerful racing machines around a large dirt track. Once each team member has had a few practice laps they will take it in turns to race against the clock.

Powerturn Driving

This bizarre vehicle is powered by two 195 cc engines, each controlled by a lever at each side of the driver. A pair of wheels sits at the front and back of the vehicle for stability. The vehicle is capable of incredible turns, dramatic wheelies and impressive acceleration.

Quad Bikes

Drive these 250 cc four wheeled motorbikes around a challenging obstacle course incorporating limbo bars and tight corners. The competitors are scored depending on their driving ability and skill.

Reverse Steer Snooker

This converted Jeep provides one of the funniest activities you'll ever experience. The objective is to drive the car through a series of snooker ball coloured gates accumulating the highest break possible along the way. The problem is when the car is steered left it will go right and throw a couple of blindfolds in – the result is hilarious!

Air Pistol Shooting

Ten shot Smith & Wesson revolvers are used to test the marksmanship of the team. These state of the art pistols are powered by Carbon Dioxide gas and allow pinpoint accuracy using single shots against paper targets or rapid fire in a speed based competition.

Archery

An experienced archery instructor will take the guests through a series of practice sessions and scored competition rounds using Recurve Longbows.

Clay Pigeon Shooting

A CPSA qualified instructor will take the team through the basics of shooting Clay Pigeons. Each individual will use a 12-gauge shotgun to shoot at a variety of clay. (Note: times for clay shooting are restricted - please check with the office for exact details.)

Terex 360^o Digger Challenge

The 360^o digger is the king of the construction site. These huge machines can scoop up tonnes of soil at a time and swivel on the spot. The challenge is to scoop footballs from the top of cones and drop them into a basket.

Segway Riding

These hi-tech machines take a bit of getting used to but with some tuition we can soon have team members zooming about. Powered by the latest lithium ion batteries Segways are capable of over 12 miles an hour which feels remarkably fast. Balance is controlled by the on board computer, it is possible to fall off but you have to work hard to do it. Full safety equipment is supplied.

Empire Crate Building Team Building Exercise

The team is equipped with 50 milk crates with which they must form the tallest tower possible. The tower must hold the weight of one team member at its summit (they are connected to a safety line for when the tower eventually falls over).

Poles Apart Team Building Exercise

Each team member must sign his or her name on a pad of paper. Unfortunately the paper is in the centre of a minefield. A structure must therefore be made from wooden poles and ropes to allow each person to reach the paper.

UXB Team Building Exercise

A large unexploded bomb must be defused before the timer reaches zero. The bomb must be recovered from its resting-place and defused. Nerves of steel are required for this task.

Costs

A morning meeting followed by a three activity event, as described above, will cost:

£70 per person + VAT, based on a minimum billing of six people.

This includes:

- Use of meeting room facilities throughout the morning.
- Cold finger buffet lunch (other catering options are available – see [menu](#) for details)
- All activities, staff and equipment for the afternoon
- Full use of the relevant activity areas at Wedgnoek Rifle Range
- Champagne for winning team
- Unlimited hot drinks throughout the event
- Full event management
- £5 million public liability insurance

The above format can easily be adapted to suit your needs and requirements. Please contact the office for options and availability.
